

FULL STEAM AHEAD!

Song Lyrics

Focus—the light—spark a fire
Vision is the power that inspires

Are you going in circles—
not sure what to do
Adrift in the ocean—
a captain without a crew
Got to have a purpose—
for why you're really here
A picture of the future—
can help to make it clear

Chorus

*Focus—the light—spark a fire
Vision is the power that inspires
Weave it through with a golden thread
All aboard—full steam ahead*

Take some time to figure out—what's important to you
You know its values that will guide everything that you do
Got to tell yourself the truth—about how far you've come
If you listen to hopes and dreams—the wave will carry us on

Half Chorus

Now I'm not talkin' some kind of perfection
You're on the right track when you feel creative tension
Just make it real by what you do each day
Live the future rise above the fray

*Lyrics written by a cherished friend and client of
The Ken Blanchard Companies in honor of Full Steam Ahead!*
